6. Duration : December 08, 2004 - June 30, 2005
7. Project Description :

The emergency assistance project focuses on the delivery of the immediate needs of the affected families for food, farm inputs and to increase their capacities for subsequent disasters.

8. Beneficiaries : 4,185 families
9. Expected Results :
 - Affected families have food supply for 3 days and have ample time to look for other food sources.
 - Farmer beneficiaries are able to plant palay for this planting season and give a share of their harvest for seed banking for dispersal to the next batch of beneficiaries.
 - Community members, including women are formed and organized into groups and are acting collectively to address their community's needs and problems.
